

VIII WORLD TRIBOLOGY CONGRESS - WTC 2026

SEPTEMBER 20-25 RIO DE JANEIRO - BRAZIL

Sponsorship Opportunities

About the Conference

We are pleased to announce the 8th World Tribology Congress (WTC 2026) that will be held in Rio de Janeiro, Brazil, on September 20-25, 2026, following previous WTC events in London (1997), Vienna (2001), Washington DC (2005), Kyoto (2009), Torino (2013), Beijing (2017) and Lyon (2022).

The Conference seeks to reinforce the connection between academia and industry by providing a single opportunity to discuss recent developments in Tribology, promoting collaborations and exchanges between different nationalities.

WTC 2026 is jointly organized by The Brazilian Tribology Network (TriboBr), The National Research Institute on Green Tribology Towards the Energy Transition (CT Trib), The Brazilian Association of Mechanical Sciences (ABCM), and the Brazilian Branch of MRS (SBPMat), endorsed by the Brazilian Academy of Science (ABC) and the International Tribology Council (ITC).

Rio de Janeiro

Rio de Janeiro is celebrated for its breathtaking natural beauty, tropical weather, dynamic Carnival, eclectic music like samba and bossa nova, and amazing beaches such as Copacabana, Ipanema and Barra da Tijuca.

Rio hosts over 20 renowned scientific and academic institutions and is the headquarters of Brazilian oil, mining, and telecommunications companies, including two of its major corporations - Petrobras and Vale.

In addition to tourist attractions, Rio de Janeiro has a new tourist destination: Barra da Tijuca. Besides having the longest beach in Rio de Janeiro, with 18 km of sea and white sand and home of the 2016 Olympic Park, Barra offers plenty of options for culture, gastronomy, fun, entertainment, tranquility, safety and a wide range of hotels, from budget B&B to luxurious five-star hotels.

Rio de Janeiro is a dynamic city of scientific progress, vibrant culture, and impressive historical heritage.
